

Fine Americas, Inc., Walnut Creek, CA, is a wholly-owned subsidiary of Fine Holdings, Ltd., a UK-based company with over 25 years of experience in the use and development of plant growth regulators.

Fine focuses on the development and marketing of plant growth regulators for fruits, vegetables and ornamental crops. Fine strives to improve plant growth regulator technology to meet the exacting demands of today's growers.

Product quality is of paramount importance to Fine. Strict controls are in place to ensure that all products are of the highest possible quality. Fine was one of the first agricultural companies to achieve ISO9001 accreditation in 1992. ISO (International Organization for Standardization) is the world's largest developer of standards. ISO ensures conformity of products and provides assurance on product quality, safety and reliability.

Fine is committed to helping growers produce top quality crops in line with their customers' needs. Fine currently develops and markets its products in more than 40 countries worldwide. An ongoing program of investment designed to develop new products and enhance product value will further Fine's reputation as a world leader in the field of plant growth regulation.
